

On Corpbank, the Racketeering and Other Methods of Bulgaria's Deep State I Witnessed: Interview for Stanislav Tsanov's Blog

March 19th, 2021

In March this year I received an invitation for an interview from one of the leading Bulgarian bloggers Stanislav Tsanov. Mr. Tsanov had many questions about the development of Corporate Commercial Bank (Corpbank) and its artificial bankruptcy, including the methods of the "deep state" in Bulgaria - extortion, threats and whatever other means of repression you can imagine.

I am grateful that he did not take my words out of context.
