

Tzvetan Vassilev for Liberta: "I did not lead a battle against Delyan Peevski, but against the Deep State"

October 7th, 2020

On 30 September 2020, Tzvetan Vassilev gave an extensive interview to journalist Stoyan Tonchev from Liberta. The reason for the interview is the verbatim reports from the closed meetings of the Extraordinary Parliamentary Committee on the Corpbank case, also known as the "Desislava Atanasova" committee, which have recently become public. It appears that the committee members were well aware that the so-called audit of Deloitte, Afa and Ernst & Young was false, but chose to play along to prevent public discontent.
